Article 1 - Introduction

This handbook has been adopted by the Livingston Educational Service Agency ("Agency") to establish the wages, benefits, and working conditions for Bus Drivers and Bus Assistants in the Agency's Specialized Transportation Department.

Additionally, this handbook outlines the procedures for such employees that have been put in place to ensure a safe and efficient transportation service.

This handbook does not cover every aspect of an employee's responsibilities and may not address all laws, regulations and rules applicable to the operation of the Agency.

Employees covered by this handbook are responsible for following all Agency policies, procedures, and guidelines. Nothing in this handbook nor any written or oral statements or personnel policies made now or in the future is intended to create or to constitute an employment agreement.

The Agency may, at any time, with or without notice, amend, modify or eliminate any of its policies, including those set forth herein. The employment relationship of Employees covered by this handbook may be terminated with or without cause and with or without notice at any time at the option of either the Employee or the Agency.

Any questions about employment expectations or responsibilities should be discussed with an employee's supervisor or the Human Resources Department.

Article 2 - Governance

As the employer of record, the Agency's Board of Education establishes policy and delegates to the Superintendent (his/her designee) the authority to oversee the Specialized Transportation operations. Concerns with matters related to employment should be initially be handled by approaching the Executive Director for Transportation and if additional follow up is necessary, the Agency's Executive Director of Administrative Services. As necessary, the Executive Director of Administrative Services shall consult with the Agency's Superintendent.

Two meetings shall be held during the year; one in the fall and one in the spring, at a time mutually agreeable with all parties. Additional meetings may be called by any of the parties. Each meeting will consist of two representatives from each of the Specialized Transportation division employees and the Agency (Employer). The purpose of these meetings are to review safety, procedural efficiency, employee concerns, and employee suggestions.

Article 3 - Definitions

The following terms are defined:

- A. **Agency.** The Livingston Educational Service Agency.
- B. **Day.** The term, Day, denotes a working day unless otherwise stated.
- C. **Employee.** The term, Employee, denotes any person employed in any position by the Agency covered in this handbook.
- D. **Employer.** The term, Employer, denotes the Board, the Superintendent, and their designees (including supervisors(s) and office staff members).

Article 4 - Employment Procedures

Section 4.01 Employment Qualifications

The Agency seeks to recruit and retain employees of good will that strive to provide premier transportation services at all times. Employees are expected to be both qualified and competent both in the operation of the vehicles (as required by their job assignment) and in dealing with and handling students with whom they will interact.

All employees shall meet and comply with all federal, state, and Agency standards, policies, regulations, codes and laws, including but not limited to transportation issues, privacy issues, student record issues and any other issues arising out of their employment with the Agency.

The Agency shall utilize a pre-employment interview and/or screening program for all candidates for employment. The screening program shall be designed to identify those candidates who may be suitable for assignment to services for all students.

Every bus driver must have and maintain a valid Commercial Driver's License, appropriate to the vehicle that is being driven, with a passenger endorsement as issued by the State of Michigan, together with any applicable Federal licensing requirements.

Section 4.02 Health and Physical Requirements

Every driver shall be in good health and physical condition to provide services. New employees shall be given pre-employment physicals unless they have successfully passed a physical in the past 12 months for a school transportation job in a Michigan Public School.

Health & Physical examinations shall be required for all bus drivers as established by the Michigan Department of Education and shall be scheduled and paid for by the Agency. Examinations shall occur at least once every two years but may be scheduled more frequently at the discretion of the Agency.

Each driver shall submit to the Agency and also carry (when providing services) a physician's certificate of examination, all in accordance with applicable legal requirements, in particular the Michigan Pupil Transportation Act.

The Agency may request a clinical examination, either physical or mental or both, at its expense when, in its estimation, the health of the employee is such as to render him/her unfit for service. Employees will not lose wages for examinations required by the employer under this section.

Section 4.03 Background Checks

The Agency shall require all of its employees that may be in contact with students to be fingerprinted for the purpose of conducting both federal and state criminal background checks as well as a check of motor vehicle operations violations. Each driver shall have a certified safe driving record and no felony conviction for drugs or child abuse or any other felony related to the safe transportation of children, whether or not associated with the operation of a motor vehicle, or conviction at any time of driving under the influence of alcoholic beverages.

Drivers shall have less than six points on his/her driving record pursuant to the State of Michigan points system maintained by the Michigan secretary of State.

The Agency may utilize the background checks performed by another school district in accordance with the

Revised School Code and applicable laws.

Section 4.04 New Positions

Information about available new positions is posted on the Agency website and is also available in the Human Resources Department. Current Agency employees seeking a particular open position must apply online if they wish to be considered.

Section 4.05 Vacancies

Vacant Positions.

Positions shall be declared vacant when the assigned employee is no longer qualified for the assignment, has been terminated or transferred to another position.

Vacant positions shall be posted by the Agency for five calendar days. Qualified employees may apply on-line for the vacant position as outlined in the posting. In filling the vacancy consideration shall be given to seniority, qualifications, and work record.

Any employee selected to fill the vacancy shall have their assignment posted as a vacant position under the same process noted above. Any further vacancies created by this shall be filled at the Agency's discretion and shall not be posted.

Temporary Vacancies.

A temporary vacancy shall be declared when an employee provides notice to the Agency that they shall be absent for 20 consecutive days on an approved medical leave of absence.

Temporary vacancies shall be bid internally and employees in good standing will be deemed eligible to bid. Any employee selected to fill the temporary vacancy shall have their assignment filled with a substitute employee. In filling the vacancy consideration shall be given to seniority, qualifications, and work record. Once the absent employee returns to their position, all employees given new assignments due to the temporary vacancy shall be returned to their former regular assignment.

Section 4.06 Route Assignment Process

Annual route selection dates shall be established by the Agency and distributed via email. The route selection date shall be no later than two weeks prior to the first student day of the school year. Drivers and assistants shall be allowed to review routes during times posted by the supervisor on the day preceding the route selection date.

Any driver who does not possess a current and valid certification, commercial driver's license or physical exam documentation on the route selection day will not be allowed to participate in the selection process or reserve a route.

- Route selections will be conducted based on seniority as defined in Article 9.
- Time spent by employees bidding on routes is not considered paid time, unless conducted as part of an in service.
- Routes may only be bid by employees present at the time of bid, unless authorized in writing by the Supervisor. Proxy bid will be by management staff only.

Route postings shall include the route description and the following as known at the time of bidding:

- Start and end times.
- Stop times.
- Total daily and weekly hours.
- Number of students.
- Accommodations/behavior plans for students.

The Agency may cancel, add or change route assignments at any time. Route assignments may change if the Agency determines that it is necessary to make the best use of Agency resources or to satisfy the transportation requirements of a particular student or school.

Safety concerns may also require changes to existing routes.

Information to Post. At the beginning of each new school year, all routes will be posted in advance of the route selection day. Route postings will list the pick-up points, drop-off points, starting time, estimated total daily hours and student information. Employees will be notified via Agency email when and where these routes may be viewed.

Dry Runs and Initial Parent Contact. Dry runs and initial parent contact will be coordinated by the Agency on an annual basis.

Assignment of Primary Bus to Route. Buses shall be assigned to routes every year before the beginning of each school year. This assignment is subject to change during the school year as deemed necessary. Buses are assigned to routes and not drivers.

Temporary Non-Voluntary Transfer. If an employee needs to be pulled from his/her assignment due to a staffing shortage, the displaced employee will be paid their actual hours from the new assignment or the package hours from their normal assignment, whichever is greater.

Section 4.07 Extra Work

Extra work is defined into two categories. These two categories are not included in the guaranteed package hours of either drivers and/or assistants.

The minimum pay for all extra work is one hour. Trips causing overtime to be paid should be the result of extenuating circumstances and approved in advance by the Executive Director of Transportation.

Emergency Trips in either category are assigned by the employer based on the circumstances of the emergency. Emergency trips will be assigned to the highest senior available and appropriate employee.

Employees with five (5) instances of unapproved absence without pay (AWOP) are not eligible for extra work and will be removed from the list.

1. Extra Trips.

Extra trips are defined as trips to a set or repeating destination. These trips are also at the same depart time and return time on the same day of the week.

- a. **Assignment Procedure.** The extra trips call list will begin the first day of school and start at the top of each of the Driver and Assistant seniority lists. Subsequent extra trips will be assigned on a rolling seniority basis until the end of the school year. An exception to this assignment procedure will be when an extra trip conflicts with an employees assigned student transportation route. In this instance, those employees will not be offered the extra trip opportunity.

For each trip the employer will call upon the employee and ask if they would like to take the extra trip. If the trip is declined the next senior employee on the list will be contacted. This will continue down the seniority list until an employee accepts. At the point the trip is accepted, the next extra trip assignment will begin where the call list left off.

The employer will make one attempt to contact an employee who is up for the assignment. If the employee cannot be reached, they will forfeit their place until the next rotation. This includes phone calls; no message will be left, and the employee will be passed on if the phone call is not answered. If an employee is on a scheduled assignment, the employer will wait until the assignment concludes to offer the extra trip.

2. **Field Trips.**

Field trips are defined as trips that are not set or repeating in destination or time. They do not have the same times on the same days of the week and are completely separate from each other.

- a. **Assignment Procedure.** Weekly unpaid bid meetings in the employee lounge for field trips will take place every Friday at 9:30am. Any employee that wishes to bid on the following week's trips will be required to attend unless using a proxy note.

A complete list of field trips will be provided by Wednesday of each week for the upcoming week of trips. If an employee decides to use a proxy note, it will need to be turned in to the employer by the next day (Thursday) at noon to allow time for questions to be asked if needed.

A proxy note will only be allowed for employees that may be out on a run during the normal meeting time or where an emergency extenuating circumstance exists. The proxy forms will be approved on a case by case basis at the employer's discretion.

The field trip seniority list will go into effect the first day of school for the regular school year and then re-set for summer field trips. It will start at the top of each of the Driver and Assistant seniority lists. Subsequent field trips will be assigned on a rolling seniority basis until the end of the school year/end of the summer, whichever applies.

- b. **Route Coverage.** If a field trip is assigned to an assistant or driver that overlaps with the normal route of the employee, the employer will cover the route. There is no guarantee that the same hours will be paid if the regular route is given up. The employer may also require you to switch a run with another employee to ensure that all runs remain covered. A driver and assistant from the same primary route are not allowed to simultaneously cover a field trip in order to maintain a level of consistency on the primary route. Should a driver and assistant both put in for the same field trip, the lower seniority employee will remain on the route and the higher seniority employee will be assigned the trip.
- c. **Cancelled Field Trips.** If a Field Trip is cancelled after it is accepted the employee will be offered the next available assignment that is closest to the original assignment hours. If multiple assignments are cancelled, employees will choose the replacement assignments in seniority order.

3. **Emergency Trips.**

Emergency trips are assigned by the Supervisor based on the circumstances of the emergency. Emergency trips will be assigned to the highest senior available and appropriate Employee.

Section 4.08 Summer Assignments

Employees without an instance of an unpaid unapproved absence during the school year and have received a satisfactory employee evaluation will be eligible to work during the summer. Summer assignments shall be offered using the same bidding procedure as the Fall assignments.

Article 5 - Standards of Conduct

Section 5.01 Performance Standards

Every driver shall have successfully completed the basic bus driver education program and continuing education programs as required by the Michigan Department of Education and shall meet and/or comply with all applicable federal and state legal requirements.

When a run supported by the LESA Specialized Transportation requires transportation of students with extended special needs (such as special medical care) all drivers and assistants transporting those students shall first demonstrate proficiency and/or complete special training relevant to those special requirements.

Employees are expected to follow all Agency policies, procedures, rules, and instructions at all times.

The principles listed below require the active daily attention of all employees, including consistent attendance, high standards of driving, thoughtful attention to human relations and cooperation of bus drivers and bus assistants with other persons engaged in the educational tasks of the schools in Livingston County. All regulations and procedures of the Agency are related to these central principles:

- A safe trip.
- Every trip runs on schedule.
- Daily acceptable performance.
- Positive environment for every person on the bus.

Section 5.02 Professional Development

Drivers shall successfully complete as assigned pre-service training and in-service training covering safety practices, procedures, law, and student care and discipline, in particular the following:

- A. Training required by the Michigan Department of Education to maintain the validity of the School Bus Drivers Certificate.
- B. Topics related to driving skills, behavioral problems, public relations with students, parents and school personnel, first aid, basic medical information, emergency procedures, student evacuation drills, including evasive maneuvers, pre-trip procedures, accident procedures, etc.
- C. Training to meet requirements in first aid, adult/child/infant Cardio Pulmonary Resuscitation, administration of medications such as Diastat and EpiPens, handling infectious diseases, blood borne

pathogens, and behavior management.

Section 5.03 Cell Phone Use

Recognizing that personal cell phone/smartphone use by school bus drivers or bus assistants during vehicle operation for talking or listening to music poses a potential safety risk, drivers and assistants shall not use personal cell phones while the school bus is in operation.

A bus is considered “in operation” whenever there are students onboard or the bus is in motion. Drivers and assistants must devote full attention to their task. To avoid distraction, personal cell phones must be silenced or turned off when the bus is in operation. To avoid any possible perception of illicit cell phone use, drivers and assistants may not wear Bluetooth earpieces or similar devices.

Cell phones may be used in an emergency situation if two-way radio communication is not effective. In these cases, the bus must be secured in a safe location prior to cell phone use.

Violation of this policy constitutes a serious safety violation, and is grounds for dismissal per Agency Board Policy.

Section 5.04 Radios

Radios are provided in every school bus. If during bus inspections it is determined that the radio is malfunctioning, you must immediately notify the dispatcher to resolve the matter. Radios are provided for safety and dispatching reasons. The following are prohibited with regards to the usage of radios:

- Radio usage for personal reasons. All transmissions must pertain to official school transportation business.
- Transmitting while someone else is using the radio. Wait until they clear before transmitting.
- Transmitting confidential information.

Section 5.05 Family Members

Family members may not ride the bus with an employee they are related to without the express written permission of the Supervisor.

Section 5.06 Conduct on Trips

Lateness and/or other unprofessional behavior on extra trips will not be tolerated and may result in the employee’s name being removed from future extra assignments. Drivers must stay with the bus at the location of the trip unless otherwise instructed. Drivers must have the teacher’s permission and the supervisor’s approval to leave the site of the trip for any reason.

Section 5.07 Drug Use Prohibition and Prevention

Drivers or aides shall not use tobacco products, including tobacco alternatives (i.e. e-cigarettes), or possess, consume or be under influence of alcoholic beverages or controlled substances during paid hours or prior to undertaking such duty within the time frames specified in applicable legal requirements, in particular the Pupil Transportation Act, or otherwise in the exercise of reasonable judgment.

The Agency shall conduct or cause to be conducted tests under applicable legal requirements to determine

the presence of illegal drugs, controlled substances, or alcohol. Such tests shall be administered to:

- A. Any driver involved in an accident while working but not absolved of fault at the scene of the accident by a Law Enforcement Officer.
- B. Any driver or aide whom the Agency has reasonable cause to believe has reported to work or is otherwise on school property while under the influence of drugs or alcohol.
- C. Any driver selected for random drug and alcohol tests.

Any employee who receives a screening and confirmation drug test by the medical review office (MRO) or a confirmed test of alcohol concentration .02 or greater will be immediately discharged.

Section 5.08 Appropriate Dress and Grooming

Employees may dress casually, but be aware that you are representing the Agency. Your clothing should be appropriate. For the purposes of safety whenever you are representing the Agency and being paid all footwear must have an enclosed heel, covered toes, and a sole that provides ample traction. If you have a question about what is permissible, please contact your supervisor. Employees wearing inappropriate clothing may be sent home without pay.

Section 5.09 Reporting Traffic Violations

Traffic violations incurred outside of work shall be reported by the employee to their supervisor with 24 hours of receiving the ticket.

Section 5.10 School Bus Idling

A. Pre-Trip Inspection.

1. Your bus may idle during the pre-trip inspection as many of your required checks depend on the bus running.
2. If the temperature is above 40 degrees, you must shut your bus off after completing your pre-trip.
3. If the temperature is below 40 degrees, you may allow your bus to continue to idle. The maximum idle time in this situation is fifteen minutes.

B. Special Situations.

During periods of extreme cold, the mechanics will start the fleet at a temperature chosen in conjunction with the office staff. This temperature will vary due to multiple factors

C. AM Unload at School.

1. You must shut your bus off if you are sitting for more than 5 minutes. The bus will retain enough heat to keep the students safe and comfortable. Be sure to turn your key to accessory to allow the 2-way radio to function, as well as shutting down any blowers or fans to save the batteries.
2. If you are routinely to school early enough to where this is an issue, see a supervisor to have your route adjusted.

D. Before Noon Route.

Unless otherwise noted on the message board, no idling is allowed prior to the noon routes.

E. Before PM Route.

Unless otherwise noted on the message board, no idling is allowed prior to the PM routes.

During periods of extreme cold, some or all of the idling restrictions above may be lifted. Be sure to check the message board for information. If you feel there is a special situation involving your bus or route that requires you to act outside of the policies listed above, please see a Supervisor on duty.

Section 5.11 Route Adherence and Accuracy

The established route directions are to be followed as written, unless doing so presents a clear and immediate danger to students and staff, would violate traffic laws, or there is a legitimate cause to deviate as described below.

The employer must preapprove permanent deviations from the scheduled route. Deviations include travel path, including turn-around location, pick up/drop off locations, and pick up/drop off times.

Temporary deviations due to missing students are allowed, as long as the scheduled times for the students on board are not adjusted.

If you are aware of a significant deviation due to temporary changes such as absent students, report this to the dispatch staff. They will advise if they intend to contact parents to ask permission for the earlier pick up and drop offs, or if you should secure your bus and wait for the scheduled times. Do not modify parent pick-up times without approval from your Supervisor.

Permanent changes or schedule inaccuracies must be reported to the router. For the purposes of this section, a student who has not ridden for over a week without any contact from the parent(s) is considered a permanent change and must be reported to the router.

Section 5.12 Official Correspondence

Most official communication to employees is via Agency email. Make sure you have access to your account, and check it several times a week. Copies of communications may be placed on the various information boards, but this is not required.

Section 5.13 Fueling Buses

Employees are not permitted to fuel a bus unless they have completed all required training on the "underground storage tank A/B system" and have a "Class C Operator" permit.

Buses are to be fueled whenever the level indicated is below $\frac{1}{2}$ at the conclusion of a route. This standard is the same for substitute drivers.

Assistants are to be dropped off at the garage prior to fueling your vehicle.

Fueling is to be completed during any paid downtime, such as a scheduled layover or package hour time generated by missing students.

Section 5.14 Cleaning Buses (Exterior)

Buses should be cleaned whenever needed to maintain a safe and appropriate environment for transporting students, or as directed by their Supervisor. Bus washes should be limited to no more than one time every other day and done at the end of a route, not before leaving. Assistants are to be dropped off at the garage prior to washing.

Section 5.15 Interactions with Parents

Drivers and assistants may share information with a parent about how that parent's child is doing on the bus. Staff should try to establish a good relationship with them. When parents see that the bus staff cares about the welfare of their students, they will provide support when approached for help with problems.

Avoid the following pitfalls when dealing with parents:

1. Never argue with parents.
2. Do not discuss other students on the bus outside of their own children.
3. Do not discuss your coworkers with parents.
4. Never make deals or changes to the route with parents.
5. Never lose your temper when discussing matters with parents.
6. Never attempt to discuss or handle problems with a parent through the open door of a bus.
7. Never tell a parent how to manage students who ride your bus.
8. Never allow unauthorized persons on your bus.

If a parent approaches you during a route, politely explain that you must meet your schedule. Show interest and invite them to contact you at the office. At the end of your route, or if they need immediate assistance, contact the dispatcher.

Section 5.16 Speeding/Unsafe Driving

A driver is expected to drive in a safe and lawful manner at all times. If a complaint of speeding or unsafe driving is received, the Agency will conduct an investigation and will take disciplinary action as needed.

Section 5.17 Handling Student Behavior

Employees are expected to follow proper methods for handling student behavior including, but not limited to, the following:

1. Be patient.
2. Always submit an Incident Report whenever a student's behavior or medical circumstances are outside the student's normal day.
3. Address undesirable behavior as soon as you see it.
4. When correcting students, be sure to do so in a manner that respects their disability or conditions.
5. Do not engage adult conversations that are inappropriate for children.

6. Don't "save up" student incidents. Report each one as it occurs.
7. Do not judge a student's ability or comprehension by outward appearance.
8. Treat students as individuals. Learn their names. Compliment good behavior.

Section 5.18 Daily Announcement Log

Daily announcements will be communicated on a daily check-in sheet located at the dispatch window. Employees are required to initial this sheet when reporting for their first assignment of the day.

Section 5.19 Driver's Required Paperwork

The accurate completion and submission of the following items are the responsibility of the bus driver. Additional items may be added to this list.

- **Daily Inspection Report Booklet** – individual daily sheet.
- **Student Attendance Log** – monthly report.
- **Mileage Log** – submitted when full.
- **Evacuation Practice Forms** – submitted as requested.

Section 5.20 Student Transfer Method

It is important for the safety of our students that the requested method of transfer as listed on the student's Specialized Transportation Request Form is followed. An overview of the three methods is listed below;

Independent Transfer – This is the least involved method of transfer. The student is dismissed at the requested drop-off location without escort or verification of other family/caregivers being present. This is reserved for the most self-sufficient of students. If you see a young student, or a student that seems unable to care for themselves marked as Independent Transfer, please contact the dispatchers for clarification.

Eye to Eye Transfer – This is the most common transfer method. The bus driver must make visual confirmation that a member of the family or other caregiver is present to receive the student before they are released from the bus.

ID Badge Transfer – This is the most secure and least common method of transfer. Any person receiving the student from the bus *must* present an Agency issued badge to signify that they are authorized to receive that student. THIS INCLUDES PARENTS AND FAMILY MEMBERS. Do not release to anyone that fails to provide an Agency ID badge. See the supervisor for clarification if you have questions about the appearance of the badge.

Section 5.21 Student Medical Boxes

Student medications are kept in plastic medical boxes, or "med boxes". These medications are needed to ensure the safe transport of certain students, and are a critical safety item.

Medical Boxes are to be brought back inside the garage at the completion of every run. Certain medications are temperature sensitive so it is important to report any medications that have been forgotten on the bus.

It is the responsibility of the bus driver to ensure any needed boxes are onboard before leaving, and returned after the run.

Article 6 - Emergency Situations

Section 6.01 Bus Breakdowns

Any mechanical failure or other problem that impairs an employee's ability to continue the route must be immediately reported to the dispatcher. The dispatcher will provide instructions applicable to the situation. Employees shall not abandon a bus in distress.

Section 6.02 Accident Procedures

- In the event of an accident that, in the judgment of the driver, is not life threatening, contact dispatch. A driver's first priority is the students on the bus.
- If it appears there have been significant injuries, contact 911 first. If the driver does not have a cell phone available, dispatch should be contacted using the two-way radio or a cell phone available at the scene should be used.
- Students should remain on the bus if at all possible. Evacuate only if absolutely necessary.
- The bus driver/assistant must collect the seat location of students on board during the accident. Do not discuss the accident with any parties other than the police and office staff.
- If medical personnel decide to remove students from the bus, be sure to provide them with the student data forms and care plans, and ask where the student is being taken.
- Contact the supervisor for additional procedures/guidelines.

Section 6.03 Medical Emergency

General Procedure:

- Secure the vehicle.
- Contact base with your location, and nature of the emergency.
- If the emergency involves a student, review and follow any applicable Care Plans. If the student does not have a Care Plan, or the emergency is not related to the issues covered in the plan, follow your general First Aid and CPR training.

Article 7 - Safety Program

The Agency acknowledges that safety is a paramount concern, and accordingly, employees of the Agency shall comply with all aspects of the safety program. The safety program shall include, but not be limited to, scheduled safety meetings for drivers and aides and at a minimum shall meet and/or comply with all applicable federal and state legal requirements.

Suggestions for training and/or safety meetings subjects should be directed to a Supervisor. All constructive suggestions are appreciated.

Section 7.01 "Empty Bus" Program

Children, especially very young children, may not always get off the bus at their appointed stop. A child's health could be seriously threatened if left on a bus unattended for an extended period of time, depending

on the weather conditions, temperature, location and other factors. The leaving of a child on a bus by a bus driver and assistant shall result in immediate termination for both.

To prevent the leaving of students on the school bus after the completion of a route, the bus driver and assistant may complete a quick check for remaining students. Once back at the transportation facility a formal inspection after each route shall be completed by walking to the back of the bus and inspecting around and under all seats. The driver shall then hang a sign, provided by the Agency, in the back door window of the bus. (Note: Some busses are equipped with a Child Reminder System (CRS). The CRS does not replace the employee's responsibility for placing the empty sign in the rear window of the bus).

If a bus is found without a sign while parked at the transportation facility, the staff member will immediately check the bus for students and then report this action to the supervisor.

Buses are not to drive outside of the transportation facility with the sign displayed in the back door window.

Section 7.02 Bus Inspections

A. Pre Trip Inspections

The school bus driver is expected to make a safety inspection of their vehicle before receiving any passengers. The safety inspection is to be documented using the form provided by the Agency. The safety inspection form is to be turned in on a daily basis. Any mechanical issues are to be documented. If the driver is concerned about the immediate safety of their bus, the driver is to contact the supervisor, or if the supervisor is not available the driver is to contact the dispatcher on duty. During the pre-trip inspection, the driver must remove the "Empty Bus" Program sign until the end of his or her route.

B. Post Trip Inspections

The school bus driver is expected to complete a post trip inspection during which they close all windows, hatches, and doors. They then inspect the interior of the bus for vandalism, lost articles, remaining students, etc. and hang the designated sign in the rear emergency door. The exterior of the bus is then inspected for anything out of the norm and document findings on the designated form.

Section 7.03 Bus Maintenance Requests

Drivers shall submit a completed Daily Vehicle Inspection Report to communicate maintenance needs to the garage staff. More time critical issues may also be communicated verbally in addition to but not in place of written documentation. If you are ever instructed by the garage staff to discontinue an issue you feel needs repair, report your concerns to the supervisor.

Section 7.04 Practice Evacuations

Employees are required to perform three practice evacuations per student group during the school year.

The due date and type of evacuation is listed on the Practice Bus Evacuation Form, which is distributed at bid as well as available in the main hallway.

With the exception of non-ambulatory students, and those with behavior issues, the staff are to physically evacuate the students during an evacuation drill. This should be completed in the parking lot of the destination school, and must be witnessed by staff from another bus or the school.

The overall plan needs to be documented and, along with the evacuation form, submitted to the dispatchers before the due dates listed.

Article 8 - Staff Performance

Section 8.01 Evaluations

The employer shall complete an evaluation for each employee at least once every school year. Evaluations shall be based on each employee's performance in the following categories:

- A. **Safety** – Performing all duties without accidents, tickets or formal complaints and in accordance with applicable laws, as well as Agency policies, guidelines, and instructions.
- B. **Attendance** – Coming to work consistently and working the scheduled work shift; arranging appointments and personal business so as not to interfere with scheduled duties.
- C. **Cooperation** – Cooperates with parents, school districts, and the Agency staff to make operations run smoothly.
- D. **Attitude** – Exhibits a positive, proactive attitude and seeks solutions to problems rather than placing blame or merely complaining.
- E. **Communication** – Informs supervisors about conditions requiring attention and listening to parents, students, and staff regarding concerns.
- F. **Contributions** – Using innovation and shared thinking to resolve problems, making suggestions and working toward common goals of the department.

Employees have a right to attach to their evaluations a written statement as permitted by law.

Section 8.02 Accident Review Committee

Accidents resulting in an injury or over \$1,500 total estimated damage will be addressed by the Accident Review Committee.

The purpose of the Accident Review Committee is to provide a fair and uniform process to evaluate and determine post-accident activities with the overall objective of reducing or eliminating repeated accidents. The committee shall review all accidents to determine the preventability of the accident and the level of compliance with Agency policies and procedures.

The concept of preventability is based on the premise that drivers are expected to meet a higher standard of performance than the average motorist. It is self-evident that the professional driver should be able to observe and assess the behavior of pedestrians and other drivers and recognize those actions that may create hazardous conditions and take every reasonable measure to avoid involvement in an accident.

The committee shall review the accident for defensive driving and preventability, not for legal fault. The fact that a driver, who becomes involved in a vehicle collision, is not legally at-fault does not mean the driver could not have prevented the accident.

The committee shall consist of three members, the Executive Director of Transportation, an Associate Supervisor, and a certified trainer.

The Executive Director of Transportation will apply the following guide to determine the applicable progressive post- accident action:

Preventability Determination	Action
------------------------------	--------

First preventable accident within current fiscal year with or without property damage and/or injuries.	Re-training, written reprimand, and up to 3 days suspension without pay.
Second preventable accident within current fiscal year with or without property damage and/or injuries.	Termination of employment as a bus driver. Employee may appeal to be retained as a bus assistant.
Two preventable accidents within three years of the current accident under review.	Re-training, written reprimand, and up to 5 days suspension without pay.
Three preventable accidents within three years of the current accident under review.	Termination of employment as a bus driver. Employee may appeal to be retained as a bus assistant.
Preventable accidents where bus rear-ended other vehicle, failed to stop at a stop sign or traffic light, failed to yield, struck a pedestrian or other similar serious singular event.	Progressive discipline steps may be accelerated to a more severe response level, including termination.

The Agency may require additional follow-up depending on the nature of the accident.

Section 8.03 Retraining

The Agency may require retraining after a preventable accident or incident or after a driver's evaluation. A driver assigned such retraining may not continue to provide services until such retraining has been successfully completed.

Section 8.04 Performance Improvement

Performance improvement may be suggested whenever the Agency believes that an employee's performance is less than satisfactory and can be resolved through adequate counseling. Corrective counseling is completely at the discretion of the Agency. The Agency expressly reserves the right to discharge "at will." Even if corrective counseling is implemented, it may be terminated at any step at the discretion of management. The Agency, in its sole discretion, may either warn, reassign, suspend, or discharge any employee at will, whichever it chooses and at any time.

The Executive Director of Transportation will determine the course of action best suited to the circumstances. The steps in performance improvement are as follows:

A. Verbal Counseling

At the first step in correcting unacceptable performance or behavior, the supervisor will review pertinent job requirements with the employee to ensure his or her understanding of them. The supervisor will consider the severity of the problem, the employee's previous performance appraisals and all of the circumstances surrounding the particular case. A written warning, probation, or possible termination could result if the problem is not resolved at this level. The supervisor will document the verbal counseling for future reference but it will not become part of the employee's personnel file.

B. Written Reprimand

If the unacceptable performance or behavior continues, the next step is a written reprimand. Certain circumstances, such as violation of a widely known policy or safety requirement, may justify a written reprimand without first using verbal counseling. The written reprimand defines the problem and how it may be corrected. The seriousness of the problem will be emphasized, and the written reprimand

shall indicate that probation or termination or both, may result if improvement is not observed. Written reprimands become part of the employee's personnel file.

C. Probation

If the problem has not been resolved or the circumstances warrant it, or both, the employee may be placed on probation. Probation is a serious action in which the employee will be advised that termination will occur if improvement in performance or conduct is not achieved within the probationary period. The Executive Director of Transportation and the designated supervisor, after review of the employee's performance improvement documentation, will determine the length of probation. Typically, the probation period should be at least two weeks and no longer than 60 days, depending on the circumstances. A written probationary notice to the employee will be prepared by the Executive Director of Transportation who shall meet with the employee to discuss the probationary letter and answer any questions. The employee should acknowledge receipt by signing the letter. If the employee should refuse to sign, the Executive Director of Transportation may sign attesting that it was delivered to the employee and identifying the date of delivery. The probationary letter becomes part of the employee's personnel file.

On the defined probation counseling date or dates, the employee and the Executive Director of Transportation will meet to review the employee's progress in correcting the problem that led to the probation. Brief written summaries of these meetings shall be prepared with a copy provided to the employee and a copy placed in the employee's personnel file.

At the completion of the probationary period, the Executive Director of Transportation and the designated supervisor will meet to determine whether the employee has achieved the required level of performance and to consider removing the employee from probation, extending the period of probation, or taking further action. The employee will be advised in writing of the decision. Should probation be completed successfully, the employee will be commended, though cautioned that any future recurrence may result in further disciplinary action.

D. Suspension

A two or three-day suspension with or without pay may be justified when circumstances reasonably require an investigation of a serious incident in which the employee was allegedly involved. A suspension may also be warranted when employee safety, welfare, or morale may be adversely affected if a suspension is not imposed.

In addition, and with prior approval of the Executive Director of Transportation, suspension without pay for up to three consecutive working days may be imposed for such proven misconduct as intentional violation of safety rules on the job. These examples do not limit the Agency's use of suspension with or without pay in other appropriate circumstances, such as the need to investigate a serious incident. In implementing a suspension, a written counseling report shall be issued to set forth the circumstances justifying the suspension. Such a report shall become part of the employee's personnel file.

E. Termination

The employee is notified of the termination by the Executive Director of Transportation and will be directed to report to the personnel department for debriefing and completion of termination documentation. Involuntary termination is reserved for those cases that cannot be resolved by corrective counseling or in those cases where a major violation has occurred which cannot be tolerated. Terminations are to be treated in a confidential, professional manner by all concerned.

Section 8.05 Attendance Expectations

Employees are expected to come to work on all days they are scheduled.

Attendance issues include tardiness, excessive absenteeism, failure to report (no call /no show), pattern of absences (missing certain days of the week, etc.), or any absence without pay (AWOP) not related to an approved medical illness. Attendance issues will be subject to a separate improvement plan.

Instance Number	Attendance Issues	Failure to Report	Tardy	Absence Without Pay
	All other attendance related issues not itemized in the following table. Section 8.06 Dispute Resolution

An Employee that has a concern or issue related to their work or workplace should first communicate these

issues to the Executive Director of Transportation. If after meeting with the Director the employee still feels their issue is unresolved, they may contact the Executive Director of Administrative Services and request a meeting. If still unsatisfied after this meeting, a meeting with the Superintendent or designee may be requested.

Article 9 - Seniority

Section 9.01 Seniority

Seniority is recognized for purposes of route assignments as follows for employees:

- A. Seniority for purposes of bidding on routes was initially established on July 1st, 2015 for all existing employees. The order of seniority was based on the Adjusted Seniority Date with the Agency as of 6/30/15.
- B. Effective July 1, 2018, combined seniority from all positions will be frozen for current employees who have occupied both driver and aide positions for purposes of route assignment. For those hired during the 2017-18 school year or who have only held one position in the Specialized Transportation Department since their hire date, seniority earned in the current position will determine seniority for purposes of route assignment.
- C. Employees that accept another position within the Agency shall have their seniority frozen. Such employee may use their seniority to bid on future vacancies or routes, provided they return to a Transportation assignment at the next bidding cycle. Employees who remain in a non-Transportation assignment beyond the next bid cycle shall forfeit any Transportation seniority.

Section 9.02 Loss of Seniority

- A. An Employee will lose his/her seniority and his/her name will be removed from the seniority list and the Employee will be terminated from employment when one or more of the following events occurs:
 1. The Employee quits, retires or is discharged.
 2. The Employee has been laid off for more than one (1) year.
 3. The Employee has been on an unpaid leave of absence for a period of time exceeding their accumulated seniority days or one year whichever is less.

Article 10 - Compensation

Section 10.01 Payroll Procedures

Employees will document their hours on a weekly timesheet. This sheet will have spaces to record any extra work, and spaces to record actual time worked if the assigned route exceeds the scheduled hours. Below are some important rules and procedures to follow when documenting your times:

- A. If you exceed your scheduled hours, record the actual time worked. Then, have a dispatcher review and sign your extra time as soon as practicable. The dispatcher may refer you to a supervisor depending on the nature of the extra time.
- B. Be sure to review your timesheet at the end of the week and sign the signature line before submitting it to the dispatcher.

- C. Timesheets are due on Friday after completion of the final run. Timesheets will be accepted no later than noon on Monday. If you are consistently late, you may miss a check date and be subject to a performance improvement plan.

If you have an unreported permanent route change, cancelled trip, or any other issue that would impact your hours, report and document it. Payroll fraud will result in actions that include immediate termination up to and including prosecution.

Section 10.02 Package Hours

Package Hours are determined by the total estimated drive time of the route as determined by the routing software, plus:

Condition	Driver	Assistant
First run of the day	+15 minutes for vehicle pre-trip inspection	+5 minutes for report time
All subsequent runs except the final run of the day	+5 minutes for report time and approach inspection	+5 minutes for report time
Final route of the day	+10 minutes for paperwork and email	+10 minutes for paperwork and email

Drivers who are assigned a second vehicle (such as a Head Start bus) who drive the vehicle on its first run of the day are given a second 15-minute allotment to complete an additional pre-trip inspection.

Package Hours are compiled as accurately as possible, but adjustments will be made for any clerical errors. Additionally, any permanent changes to the package will cause the hours to be adjusted either up or down to suit the revised route. A permanent change includes students who move out of district, students that are reassigned to other routes/schools, students who have not ridden for over a week without contact from the parent, or any other change that it is not reasonable to assume is transient in nature.

If an outbound route concludes early, the Employee is required to remain on premises until the conclusion of paid time. Likewise, if a route is missing students on the inbound side the Employee is required to report at the scheduled time. While on paid time, other duties may be assigned that fit within the originally scheduled route time.

The package hours as documented are official.

Hours Stabilization. Permanent route changes (as defined in Section 10.02) shall not negatively impact the scheduled package hours beyond three hours per pay. This applies to the hours at the time the route is bid.

Section 10.03 Wages

Employees shall move steps on the wage scale based on time worked for the Agency in their assigned job and with an annual evaluation that provides evidence the employee has met the performance expectations as established within this Handbook. All increments occur on July 1st. New staff members hired may be given credit for prior experience.
